## **Revenue Narrative**

FY 2020	In the pandemic year we lost revenue in the area of Educational Programs as well as Fundraising Events. Some of this shortfall was made up with a special fundraising plea, state emergency grants, and the federal Payroll Protection Program.

## **Expense Narrative**

Expense Details

FY 2020Our expenses for independent contractors (instructors) was down due to in-person classes and workshops being<br/>cancelled. Regarding Occupancy Costs, we closed for 13 weeks which may have affected the cost of utilities to some<br/>degree. But in 2020 we did not have any additional building maintenance expense nor any improvements. This<br/>shows a sharp decline compared to 2019.FY 2021n/aFY 2022n/a

Debt service impact	53%	45%	-15%	41%	-9%

**Balance Sheet Metrics** 

Months of operating cash (Cash & Cash Equivalents/(Total Expense/12)) indicates the number of months an organization can operate at current average monthly expense levels with existing unrestricted cash and cash equivalents.

**Working capital** (Current Assets minus Current Liabilities) consists of the resources available for operations. This calculation of working capital may differ from your internal calculations. Adequate working capital provides financial strength and flexibility to your organization, the ability to meet obligations as they come due, and the ability to take more risks, knowing there is a cushion to fall back on.

**Current ratio** (Current Assets divided by Current Liabilities) determines the organization's ability to pay current debt using current assets. A ratio of 1.0 indicates that current assets are equal to current liabilities. A ratio of around 1.5 is a more comfortable position, allowing for more cushion against uncollected receivables or timing discrepancies between expected receipts and disbursements. Ideally this number should approach 2 which indicates ample short-term liquidity to obviate the need to borrow or sell assets.

Net assets as % of total expenses measures the net worth of an organization in relationship to its operating size. It is calculated as total net assets divided by total expenses. If the trend is level or increasing, then total net assets are keeping pace with growth in operating expenses.

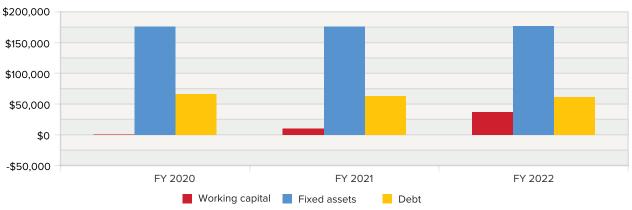

**Condition of fixed assets** indicates the potential need for replacement or repair of fixed assets (such as buildings, furniture, office equipment, sets and props). This is especially significant for organizations that own a building or carry a long-term lease. Accumulated depreciation of less than 50% of the total value of fixed assets indicates a stock of relatively new assets. A high percentage (>80%) of accumulated depreciation could indicate aging infrastructure and need for funding the replacement or repair of fixed assets in the near future.

Leverage ratio (Total Debt divided by Total Assets) measures what proportion of your assets are supported by debt. A number in excess of 50% may indicate liquidity problems, or reduced capacity for future borrowing.

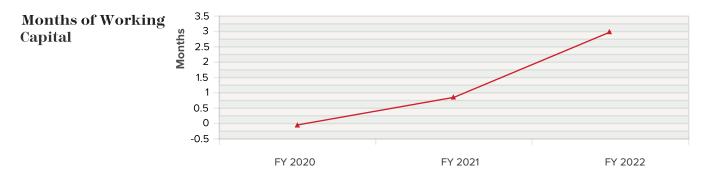

Fixed assets (net) is the value of all land, buildings, equipment, leasehold improvements and other property and equipment owned by the organization. It is calculated net of accumulated depreciation to reflect the reduction in the value of an asset as it ages and is used.

Total debt consists of all short and long-term contractual obligations of the organization, including lines of credit, loans, notes, bonds, and capital leases.

**Debt service impact** (Total Debt Service, including principal and interest, divided by Total Expense) calculates the % of an organization's total expenses applied to the total debt-service burden. The higher the percentage, the more the organization has to dedicate its resources to debt repayment rather than programming and other operating expenses.

Program Activity Narrative				
FY 2020	The pandemic and our three month closure brought a halt to all of our planned programs for Spring and Summer. Plans for in-person programming for Fall and Winter were put on hold.			
FY 2021	Due to COVID we did not host public receptions and the small number of classes we offered in person were limited to 6 participants. Some ran with the miniumum of 3 students.			
FY 2022	n/a
